Functional & Performance Testing Template

Model Performance Test

Date	
Team ID	SWTID-2026-1809
Project Name	Enforcing Mandatory Fields Using UI Policies and Migrating Changes with Update Sets”
Maximum Marks	

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Mandatory Field Enforcement	Leave mandatory fields empty and try to submit the form	System should prevent submission and show error message	Form submission blocked and error message displayed	Pass
FT-02	Conditional Mandatory Fields (UI Policy)	Select specific condition (e.g., Category = IT) and check field behavior	Related fields become mandatory dynamically	Fields became mandatory based on condition	Pass
FT-03	Form Submission with Valid Data	Enter all required fields correctly and submit	Form should be submitted successfully	Form submitted successfully without errors	Pass
FT-04	UI Policy Configuration Check	Create/Edit UI Policy and apply conditions	UI Policy should enforce rules correctly	UI Policy applied and working as expected rules correctly	Pass
PT-01	Update Set Creation	Make configuration changes and capture them in an Update Set	Changes should be recorded in the Update Set	Update Set captured all changes	Pass

PT-02	Update Set Migration	Move Update Set from Dev to Test/Production	Changes should migrate successfully without errors	Update Set migrated successfully	Pass
PT-03	System Load Handling	Multiple users submitting forms simultaneously	System should handle load without errors	System handled multiple requests successfully	Pass
